

Bachelor of Science

A STEM DEGREE
ACCELERATED ONLINE PROGRAM

The Organization, Information & Learning Sciences (OILS) program offers a unique perspective on learning sciences by concentrating on the convergence of organizational development, and instructional design and technology. The program focuses on learning at the individual, group, and organizational levels.

Instructional Technology & Training

Earn a B.S in Instructional Technology & Training with the 2 + 2 Transfer Program.

The program takes two years of college credits from an accredited institution and two years of coursework in OILS to earn a B.S.

The OILS B.S. Program offers students flexibility of learning with an accelerated program and online courses.
